

Documents overview

Michael C. - 2021-12-01 - Documents

You can store documents that can be shared and linked on your website, newsletters or made available to members directly from the Documents library. When uploaded, a document can be set as either **Public** or **Private**.

- **Public Documents** are available and can be accessed by any visitor to your website, provided they have been given a link to the document.
- **Private Documents** require the member to first login to the Members Area before they can view it.

Note: The maximum file size of a document is 15 MB.

How to Find the Documents Library

1. When you are in the **Member Area**, click **Home**.
2. Click **Documents**.
