

How can I find another member's contact information?

Marina N.B. - 2025-04-24 - Membership

Keeping track of contact information for your club is easy, thanks to the Club Directory which is automatically generated on the club's website. As a member, you may view the profile photos and contact details of your fellow club members by following the steps below.

1. To access the Directory tab, please log in to your club's website, and click on **Member Area** at the top right corner of the home page. For more information on how to log in, please read the article called: [How do I log in?](#)
2. On the left side, click on **Home**, then click on the **Directory** tab.

On the Directory page, you will have a few options available above the member's information:

1. Several search filters are available at the top of the page, and clicking on **+More Filters** will display more search options for you. Once you type in or select information, click on the **Search** button on the right to filter members by the selected criteria.
2. **Sort By** options available are by Last Name, First Name and Date Joined Club. Simply click on any of these options to sort the results based to the information. The arrows next to these sorting options let you choose between ascending and descending order.
3. The page will display member's profile photos and contact information in a grid (card) view. To switch to a different view, please click on **List View** button on the right side.
4. By default, the page displays 100 members, but if you wish to see more, or less, you can select the number of displayed individuals by clicking on the number shown on **Display [number] persons**.
