How to view the email usage

Omar S. - 2023-03-06 - Communication

You can view how many emails have been sent through your account by viewing the Email Usage report.

1. Click **Settings** or the **Gear icon** on the left menu.

2. Click on the **Communication** tab.

3. Click the **Email Usage** link in the **Email Reports** section.

4. The Email Usage report displays. By default, it displays the last month worth of emails. You will see the following details on the page:

   - **Email Volume Limit -** Displays the organization's annual and monthly average email limits

   - **Usage To Date** - The total number of emails that have been sent throughout the year to date.

   - **Date fields and the Generate Report button** - If you want to see different dates in the report, you could enter a new date range in the date fields and click the Generate Report button. This will reload the page to display the emails sent from the new date range.

   - **Chart Columns**

       - **Account** - The account name that sent the emails.

       - **Batches Sent** - The total times an email batch was sent.

       - **Emails Sent** - The total number of individual emails sent.

       - **Total Size** - The size of the email in KB (kilobytes).

5. To view the email's individual statistics, click the **Details** link in the Actions column. This will take you to the Email Traffic report page.
